# SALON ETIQUETTE

All bookings require a 50% non-refundable booking fee to secure the appointment, which will be deducted from the final bill. If you need to cancel, adjust or move your appointment, we politely ask for 48 hours notice to do so, otherwise a charge of 50% will be incurred to cover costs and result in the loss of your booking fee. 100% will be charged for appointments cancelled, amended or rescheduled on the same day, for appointments missed entirely/non-arrivals, and for late arrivals where your appointment cannot go ahead.

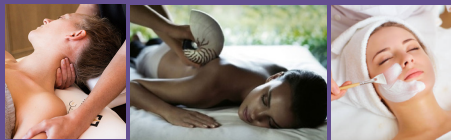

Large bookings over 2.5hrs or any group bookings will require payment in full at the time of booking to secure the appointments. Cancellations or amendments within 48hrs of the bookings and non-arrivals will result in the loss of your full payment. This applies to large or group bookings paying with vouchers also.

We will always try our best to accommodate if you are running late for your appointment, however this is not always possible without impacting on other appointments. If you arrive late for your scheduled appointment, we may need to cut your treatment short. Where this is not possible, we may need to reschedule all or part of your booking, and in this instance our late cancellation charges of 100% per treatment will apply.

Gift cards are available for your chosen treatment or amount, and are valid for six months from date of purchase. Gift cards cannot be refunded, but any treatments can be swapped, with notice, to other treatments or products if preferred - just let us know what you would like instead and we can settle the difference at your appointment, if needed. Gift cards can be purchased and redeemed across both salons.

Children under the age of 16 must be accompanied by a parent or guardian at all times.

We politely ask all clients to switch their mobile phones and tablets to silent whilst in the salon, to promote a relaxing atmosphere for other paying clients.

Relax and unwind with this therapeutic massage using five main massage techniques to work the soft tissues and muscles, promoting relaxation and releasing muscle tension. This adjustment in pressure makes it an ideal massage for relaxation.
